PRIVY COUNCIL

22nd November, 1963

Dear Joshua,

I am terribly sorry to have been so long in arranging to send you the Census Fertility reports which contain extensive data on cohort analysis of fertility, and on patterns of family building etc. The machinery is in motion, and I hope it won't be too long before the documents arrive.

I did enjoy my visit with you enormously - it was, in fact, the highlight of my sortie into California.

Yours ever,

Peter Brown

Dr. Joshua Lederberg,
